

Ress Life Investments A/S

MANAGER'S COMMENTS

Ress Life Investments' insurance portfolio continues to deliver. Another policy paid out in July and the net asset value increased by 0.7%, providing a total net return of 6.6% in US dollars year-to-date. The activity in the secondary market for US life insurance policies continues to offer opportunities and new policies are purchased at attractive levels.

The annual performance of Ress Life Investments over the past five years is 5.5% net of fees in US dollars. With a volatility of 3.9% this implies a risk adjusted return with a Sharpe ratio of 1.3.

EXECUTIVE SUMMARY

Strategy: To purchase US life insurance policies on the secondary market

Goal: To manage a diversified life insurance portfolio, which generates stable and attractive returns over the long term

Methodology: Selectively purchasing single US life insurance policies. Use of specially developed proprietary portfolio management and pricing models in order to optimise returns when purchasing policies that are held until maturity

Target: Annual net return of 7% in USD

WHY INVEST?

Risk diversification: Longevity, the main risk factor, is uncorrelated to equities, hedge funds and most other financial risk factors

Alternative fixed income: The risk characteristics are similar to fixed income investments, but with a higher expected return

Stable performance: Realised volatility is 3.9% and sharpe ratio is 1.3 since July 2013

Capital preservation: The strategy is suitable for investors where capital preservation is a key consideration

Exchange-traded: The company is listed on Nasdaq Copenhagen and a market-maker provides daily prices

INVESTMENT OBJECTIVE AND STRATEGY

Ress Life Investments aims to provide an annual return of 7% with low volatility by investing in the secondary market for US life insurance policies. The primary strategy is to hold the insurance policies until they pay out. The secondary market offers investors the opportunity to acquire life insurance policies at a discount to face value.

Resscapital has developed proprietary models for portfolio management and pricing in order to optimise returns when purchasing policies. Resscapital also collaborates with independent medical underwriters to assess longevity calculations on each policy acquired.

RISK MANAGEMENT

Policies are thoroughly analysed and at least two expert opinions are obtained on life expectancies, prior to purchasing. Portfolio risks and limits on portfolio diversification across insurance companies, life expectancies, age groups, etc. are monitored continuously. Resscapital only transacts with brokers who are registered and authorised, and all brokerage fees must be disclosed in a clear and transparent manner to the seller.

Diligent credit risk assessment with limits on each insurer has created a diversified life insurance portfolio. Policies are issued by over 50 different US life insurers. 75% of policies are issued by insurance companies with a credit rating of A+ (AM Best).

TEAM

Gustaf Hagerud: Managing Director, was previously Head of Asset Management at the public pension fund AP3 in Sweden and has over 30 years' experience in investment management and strategic asset allocation.

Anton Pozine: Head of Portfolio Management, has extensive experience within the life settlements and longevity linked space. Anton joined Resscapital in 2011 and has reviewed longevity-linked securities with over USD 10 billion in face value and has purchased life insurance policies with over USD 450 million in face value. Anton holds a M.Sc. in Industrial Engineering and Management from the Linköping Institute of Technology in Sweden.

Jonas Mårtensson: Founder and Head of Sales, has an international finance background and has been working for major banks in Switzerland, Belgium and the UK, focusing on fund management and structuring derivative products to institutional investors, for over 25 years.

Johan Jonson: Risk Manager, has over 25 years of experience in the financial industry. Primarily in risk management with alternative investment funds.
