

RESS CAPITAL

January 2019

Ress Life Investments A/S

AUM: 118.1 MUSD

MANAGER'S COMMENTS

Ress Life Investments posted a 0.3% return in January. The annualised performance over the past five years is 6.0%. The market remains active and new entrants include PIMCO which recently bought a life insurance portfolio from Wells Fargo.

Ress Life Investments offers real diversification benefits to investors. For a portfolio with 50% allocated to MSCI World and 50% to Barclays Global Bond Index, the total five year return is 16.6% with a volatility of 6.4% and a Sharpe ratio of 0.5.

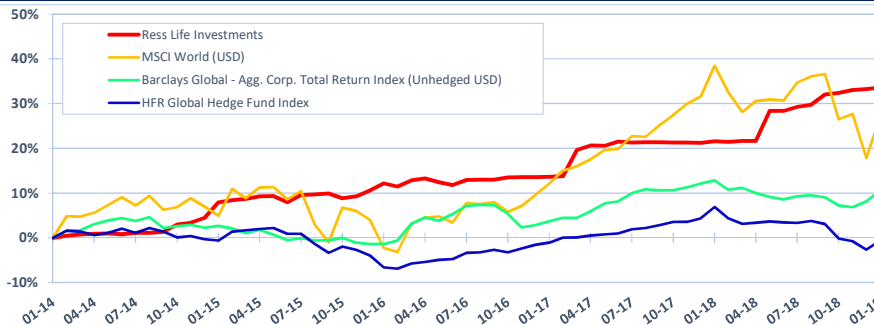

Decreasing bonds to 40% and allocating 10% to Ress Life Investments increases the total five year return by almost 3% to 19.5% with a volatility of 6.2% and a Sharpe ratio of 0.6. Thus, a higher return with a lower level of risk. (Yearly rebalancing is used in the simulation.)

RESS CAPITAL

EXECUTIVE SUMMARY

Strategy: To purchase US life insurance policies on the secondary market.

Goal: To manage a diversified life insurance portfolio, which generates stable and attractive returns over the long term.

Methodology: Selectively purchasing single US life insurance policies. Use of specially developed proprietary portfolio management and pricing models in order to optimise returns when purchasing policies that are held until maturity.

Target: Annual net return of 7% in USD.

WHY INVEST?

Risk diversification: Longevity, the main risk factor, is uncorrelated to equities, hedge funds and most other financial risk factors.

Alternative fixed income: The risk characteristics are similar to fixed income investments, but with a higher expected return

Stable performance: Realised volatility is 4% and the Sharpe ratio is 1.3 during the last five years.

Capital preservation: The strategy is suitable for investors where capital preservation is a key consideration.

Exchange-traded: The company is listed on Nasdaq Copenhagen and a market-maker provides daily prices.

INVESTMENT OBJECTIVE AND STRATEGY

Ress Life Investments aims to provide an annual return of 7% with low volatility by investing in the secondary market for US life insurance policies. The primary strategy is to hold the insurance policies until they pay out. The secondary market offers investors the opportunity to acquire life insurance policies at a discount to face value.

Resscapital has developed proprietary models for portfolio management and pricing in order to optimise returns when purchasing policies. Resscapital also collaborates with independent medical underwriters to assess longevity calculations on each policy acquired.

RISK MANAGEMENT

Policies are thoroughly analysed and at least two expert opinions are obtained on life expectancies, prior to purchasing. Portfolio risks and limits on portfolio diversification across insurance companies, life expectancies, age groups, etc. are monitored continuously. Resscapital only transacts with brokers who are registered and authorised, and all brokerage fees must be disclosed in a clear and transparent manner to the seller.

Diligent credit risk assessment with limits on each insurer has created a diversified life insurance portfolio. Policies are issued by over 50 different US life insurers. 75% of policies are issued by insurance companies with a credit rating of A+ (AM Best).

TEAM

Gustaf Hagerud: Managing Director, was previously Head of Asset Management at the public pension fund AP3 in Sweden and has over 30 years' experience in investment management and strategic asset allocation.

Anton Pozine: Head of Portfolio Management, has extensive experience in both life settlements and longevity-linked assets. Anton has reviewed longevity-linked securities with over USD 10 billion in face value and has purchased life insurance policies with over USD 450 million in face value. Anton holds a M.Sc. in Industrial Engineering and Management from the Linköping Institute of Technology in Sweden.

Jonas Mårtensson: Founder and Head of Sales, has an international finance background and has been working for major banks in Switzerland, Belgium and the UK, focusing on fund management and structuring derivative products to institutional investors, for over 25 years.

Johan Jonson: Risk Manager, has over 25 years of experience in the financial industry. Primarily in risk management with alternative investment funds.
